Since 1947, CAID Industries has built a reputation of being true innovators of manufacturing technology. CAID Industries specializes in diversification. Our unwavering determination has allowed us to outshine the competition and conquer challenges across many industries.

CAID Industries has the in-house engineering capabilities to custom design pressure vessels and pressure vessel packaged systems to customer specifications and applicable codes. With over 250,000 sq.ft. of manufacturing space under roof on a 25 acre campus, including in-house machining, electrical/instrumentation and painting facilities, CAID can deliver your project, large or small, correct and on time.
CAID is a leading manufacture of pressure vessels, tanks, packaged systems, piping and other custom products.

CAID’s in house capabilities include custom design capabilities with (9) PE’s on staff, quality control with (3) CWI’s on staff, project management, inspection/testing facilities, AISC certified painting and logistics.

CAID designs and builds to your specifications while meeting the requirements of ASME, API, CRN or other applicable standard.

Unparalleled quality units at competitive prices

Think: CAID. Think: Your complete solutions provider.

Overview:
- Pressure: Full Vacuum to 5,000 psi (34.5 MPa)
- Size: 6 inch to 20 foot diameter
- 250,000 sqft of fabrication space under roof
- Fabrications to 200,000+ lbs (91,000 kg)

Certifications & Specifications:
- ASME Sec VIII Div I - U Stamp
- ASME Sec I - S Stamp
- ASME: B31.1, B31.3, B31.4, B31.8
- NBBI - R Stamp and NB Mark
- CRN (Canadian Registration)
- AS1210 (Australian)
- API 620 & API 650
- NACE MR0175 & MR0103

Materials:
- Carbon Steel
- Stainless
- Duplex Stainless Steels
- Nickel Alloys
  - Monel, Inconel, Hastelloy, etc
- Aluminum
- Titanium

Common Applications:
- Mixing
- Separator
- Storage
- Columns & Towers
- Air Receiver
  - 60 inch diameter and larger
- Heat Exchanger
  - 14 foot diameter and larger
- Dehydrators
- Reactors
- Slug Catchers

Options:
- Jacketed
- Lined
- Polished
- Clad
- Piping
- Engineered Turn Key Packages
- Instrumentation
- Custom PLC programming
